The Central Oregon Coast is no longer without a facility for the professional grinding, sharpening, and adjusting of hand and powered reel type lawnmowers. I have the necessary precision equipment to return a hand-mower not only to “like new” cutting condition, but to better than new since the manufacturers do not relief grind the cutting reels, only cylinder grind, in order to keep their production costs down. But while it keeps down the price, it also reduces the quality of cut and increases the friction and pushing resistance. A properly sharpened and adjusted hand-mower should cut cleanly and with little or no more effort than pushing a standard gas powered mower. And it does it quietly, without fumes, thrown objects, or consuming \$4 a gallon gasoline; and it always starts. What's not to like about that?

You may rightly ask, “why on earth is a metaphysical art and supplies shop offering a lawnmower repair service?” The answer, in a nutshell, is that Ancient Light is more than just a “Magick” shop. The very term “ancient light” comes from old English common law, which forbade the blockage of daylight from a window that had been more than a certain number of years in existence. It is our belief that the “ancient light” of older knowledge and crafts and technologies should likewise not be impeded or lost just because it has, for a time, been superseded. Many old ideas are just as good as they ever were, and are just waiting for their time to come – again. In an era of rising fuel costs, increasing environmental awareness, and greater concern over safety, we consider hand mower technology to be one of those ideas. Of course, if you happen to already have one of those new-fangled gas powered units, we can work on those as well. Inside is a partial listing of repair rates. If we can be of service, please call or come on in and talk to us in person.

WHO AND WHAT IS *ANCIENT LIGHT* ?

Ancient Light is a metaphysical art and supplies shop based in Waldport, Oregon. It was opened in 2005 by Anja Bartlett to give support and counsel to the large segment of the Oregon Coast population that follows various alternative religious and

philosophical paths, including Wicca, Asatru, Gnosticism, Feri, and many others. We carry a wide selection of new and used books concerning psychic and pagan topics, CD's and DVD's, Tarot, many varieties of incense (both commercial brands and ones custom compounded in our shop), stones and crystals, visionary art prints and banners, candles, and much more. We sponsor monthly Psychic Faires, and a variety of classes. Anja is also an experienced and accomplished Reader, using Tarot as a focus tool. We also are strong supporters of the concept that just because an idea is old does not mean that it is obsolete. There are a lot of old "outmoded" ideas whose time is coming again. If you think that we can be of assistance to you on whatever path you're on, or if you're just looking for some unique gift ideas, please come into our store just south of the junction of Hwy 34 and Hwy 101, or alternatively browse our website at www.ancientlight.info, email us at ancientlight@peak.org, or phone us at (541) 563-7991. We are more than happy to accommodate phone and Internet orders as well as shoppers in our brick and mortar store. And, of course, if your lawnmower is giving you fits, we can most likely help with that as well. Just give us a call.
